PROFESSIONAL SUMMARY

UI/UX Engineer with 5 years of experience designing operational systems, enterprise tools, and user-centered digital products across multiple industries. Experienced in UX strategy, workflow optimization, design systems, and cross-functional collaboration within fast-paced product environments. Focused on transforming complex workflows into scalable, intuitive, and production-ready user experiences.

WORK EXPERIENCE

UI/UX Engineer at You_Source Inc.

July 2021 – April 2026

- Designed end-to-end product experiences for enterprise systems, marketplaces, and operational tools used by 500+ active users.
- Led UX improvements that reduced user errors by 30% and improved task completion efficiency by 25%.
- Developed and maintained scalable design systems across multiple products and workflows.
- Mentored junior designers and supported onboarding, improving design consistency and team collaboration across projects.
- Conducted UX audits and implemented usability improvements that reduced workflow friction by 20%.
- Collaborated closely with developers to ensure scalable implementation, design consistency, and production-ready UX delivery.
- Supported sprint execution by rapidly iterating features, resolving UX edge cases, and aligning with evolving business requirements.

SELECTED PROJECTS

Enterprise ERP System

Role: Prototype and Front-End Development

- Designed operational workflows and enterprise interfaces used by hundreds of active users.
- Improved workflow efficiency and reduced user friction through simplified UX flows and scalable interfaces.
- Conducted wireframing, prototyping, and usability validation before development implementation.
- Collaborated closely with developers to ensure production-ready and consistent user experiences.
- Delivered multiple UX iterations under fast-paced product and sprint environments.
- Assisted in UI polishing and component-level frontend implementation for new product features.

Mobile Ordering & Loyalty App

Role: Lead Designer

- Led end-to-end UX design for a consumer mobile application with ordering flow, e-wallet payments, and loyalty system integration.
- Reduced ordering friction by simplifying checkout flows and improving transaction clarity.
- Applied usability testing and rapid prototyping to validate intuitive mobile interactions.
- Worked closely with developers and product stakeholders to solve edge-case UX challenges while maintaining MVP delivery timelines.
- Contributed to customer retention improvements through loyalty-focused experience design.

CORE SKILLS

UX & Product Design

Complex Workflows • User Flows • Wireframing • Prototyping • Design Systems • Usability

Technical Awareness (Basics)

HTML • CSS/SCSS • Next.js • Bootstrap • Storybook • Tailwind CSS

AI & Workflow

UX Audits • Rapid Iteration • AI-Assisted Design • Design Documentation

Tools

Figma • Adobe XD • Photoshop • Framer • Visual Studio Code • Notion • Canva • Claude • ChatGPT • Cursor

ADDITIONAL EXPERIENCE & CONTRIBUTIONS

- Mentored interns and supported onboarding to improve team capability and design consistency.
- Contributed to internal process improvements and workflow optimization initiatives.
- Expanded and maintained reusable design system components across multiple products.
- Designed landing pages, internal tools, and operational interfaces supporting business and product requirements.
- Conducted UX audits to identify usability gaps and improve product experiences.

PRODUCT & AI WORKFLOW

- AI-assisted ideation and rapid prototyping
- Workflow optimization and UX strategy
- Cross-functional collaboration with developers and stakeholders
- Human-centered validation and usability thinking
- Rapid iterative design while balancing product quality and delivery speed

PORTFOLIO & CERTIFICATES

Selected UI/UX case studies focused on operational workflows, product thinking, and scalable user experiences.
